Welcome!

Welcome to the Charleston County Aviation Authority! The CCAAPD is responsible for three airports in the Charleston area with Charleston International Airport being the most prominent. Unlike other training venues, CHS is not only an active International Airport but, a Joint Military Base. Accordingly, we ask that you be especially mindful of the areas you explore, practice or train. CHS has FAA, TSA and DOD regulated areas.

Looking Ahead

Master Trainers, guest instructors and CHS staff are all here for you. All their efforts are directed at increasing your team's effectiveness and safety. So, please accept any critiques or challenges in a positive light.

Course begins at 8:00am on Sunday October 6th
3691 Leeds Ave North Charleston, SC 29405

Obtaining Certifications

It is our goal to complete all team certifications within the first two days of the seminar. If, at any time you feel you and your partner need to focus on a specific task, please advise the Master Trainer at the training location prior to attempting the task.

Scenario Training

- Each scenario will begin with instruction. The instruction is designed for the handler to interact with the trainers and to work through techniques that may be new.
- Trainers will demonstrate A WAY and not the ONLY WAY.
- These scenarios are designed to re-create real life situations. As such, no real-life situation can be perfectly recreated.
- Every Scenario is winnable.
